JARED BLUMENFELD
SECRETARY FOR
ENVIRONMENTAL PROTECTION

State Water Resources Control Board

February 27, 2019

BURNEY WATER DISTRICT
20222 HUDSON STREET
BURNEY, CA 96013

Attention: Willie Rodriguez, District Manager

VIOLATION OF TITLE 22, LEAD AND COPPER REGULATIONS BURNEY WATER DISTRICT, PWS# 4510003

In accordance with California Code of Regulations, Title 22, Sections 64675(b) and 64675.5, Burney Water District is required to collect lead and copper tap samples from 10 representative sites within your distribution system once every three years during the months of June, July, August, or September.

According to Division records, no lead and copper samples were collected during the 2015-2017 time period. Please be reminded that in future **lead and copper sampling must be performed at the correct sampling locations during the appropriate monitoring time frame.** Any future violation of lead and copper sampling requirements may result in a citation and/or increased monitoring requirements.

Our records indicate 12 locations were sampled in September 2018. Consequently, your next round of lead and copper sampling must be performed between **June and September 2021.** Please note you can look up your lead and copper sampling schedule on Drinking Water Watch at the following link: <https://sdwis.waterboards.ca.gov/PDWW/> After accessing your water system, select the Lead and Copper Sampling "Next Sampling Due Dates" from the left side of the screen.

Please contact Mey Bunte at (530) 224-3265 or Mey.Bunte@waterboards.ca.gov or me at (530) 224-4800 if you have any questions.

A handwritten signature in blue ink that reads "Stephen W. Watson".

Stephen W. Watson, P.E.
