

Burney Water District

20222 HUDSON STREET, BURNEY, CA 96013 (530) 335-3582

ORDINANCE 2025 W-1

AN ORDINANCE OF THE BOARD OF DIRECTORS OF THE BURNEY WATER DISTRICT, AMENDING ORDINANCE 2015 W-2; CROSS-CONNECTION CONTROL ARTICLE

Whereas, the purpose of this ordinance is to protect the public water supply system from contamination due to potential and actual cross-connections.

Whereas, this shall be accomplished by the establishment of a Cross-Connection Control Plan (CCCP) in compliance with the State Water Resource Control Board and California Environmental Protection Agency's Cross-Connection Control Policy Handbook (CCCPH), Adopted December 19, 2023, Effective July 1, 2024, and Amended June 17, 2025; and

Whereas, Russell Roberts Backflow has prepared a CCCP in accordance with the CCCPH for the Burney Water District to comply with the regulatory requirements for the protection of our drinking water supply; and

Whereas, the District Manager/Cross-Connection Control Coordinator or District Cross Connection Control Specialist shall be responsible for implementing and enforcing the cross-connection control program; and

Whereas, an appropriate backflow prevention assembly shall be installed by and at the expense of the water user at each user connection where required to prevent backflow from the water user's premises to the domestic water system. It shall be the water user's responsibility to comply with the District's requirements; and

Whereas, the type of protection that shall be provided to prevent backflow into the public water supply system shall be commensurate with the degree of hazard, actual or potential, that exists on the water user's premises, and unprotected cross-connections with the public water supply are prohibited; and

Whereas, to bring the District into compliance with the CCCPH requirements, the Board of Directors of the Burney Water District has determined the CCCP prepared by Russell Roberts Backflow should replace the document "Burney Water District Cross Connection Control Article, February 2015" as prepared by Backflow Management Inc..

Now Therefore, Be It Ordained by the Board of Directors of the Burney Water District, that the following amendments shall be added as follows:

Section 1. Hereby amended and the document "Burney Water District Cross Connection Control Article, February 2015" as prepared by Backflow Management Inc shall be replaced with the Cross Connection Control Plan by Russell Roberts Backflow.

Section 2. All ordinances, parts of ordinances or agreements inconsistent or in conflict with this ordinance are hereby repealed.

Section 3. The provisions of this Ordinance shall take effect immediately, after adoption by the Board of Directors of the Burney Water District.

Section 4. If any section, sub-section, sentence, clause, or phrase of this ordinance, for any reason, held to be unconstitutional or invalid, such holding shall not affect the validity of the remaining portion of this ordinance. The Board of Directors of the Burney Water District hereby declares that it would have passed this ordinance and each section, sub-section, sentence, clause, or phrase if declared unconstitutional or invalid.

This 20th day of November 2025 was duly adopted by the following vote of the Board of Directors of the Burney Water District.
