

11/13/2020

Dear Stephanie,

This letter is to inform you of my interest in being part of the Burney Water District board. I appreciate the many services the district provides.

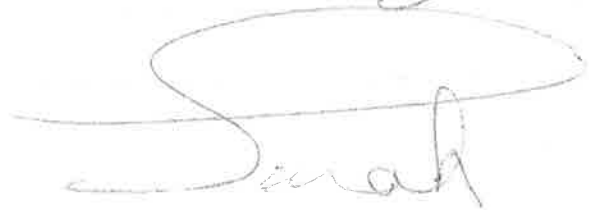

The water itself is a treasure, I never take for granted! I can say from my travels that no water anywhere compares to it.

Burney Water District employees have always been skilled and efficient when making repairs on "their side" of my plumbing.

Of course I am also very grateful for the job that you and others maintain with such high quality.

Over many years I
have been blessed by
these services the Water
District provides. If I
could now serve the
district as a board
member I would be
honored to do that.

Thank you,

A large, stylized handwritten signature that appears to read "Sarah".

Sarah B. Clark
